Syngy Selected by Akcelerant Software for Data Hosting and Business Continuity Services

Chester, Pa., December 23, 2008—Synggy, Inc. today announced that Akcelerant Software LLC, headquartered in Malvern, Pennsylvania, has selected Synggy's data center for its primary hosting facility.

Akcelerant Software provides solutions to the financial services industry—including more than 200 credit unions and banks in 44 states—for marketing, sales and service, lending, collections, and recovery.

"Synggy's business continuity services meet the needs of any company requiring secure data access, near fail-proof connectivity requirements, and very high internet bandwidth," said Mark A. Stiffler, Synggy president and CEO. "With over 99.95% uptime in a facility fortified far beyond industry standards, Synggy delivers the peace of mind that comes from knowing that sensitive data won't be compromised."

For more than a decade, Synggy-operated data centers have been a trusted solution for companies seeking on-demand software and hosting services. Synggy's data centers are staffed 24/7 by certified specialists and undergo regular third-party evaluations, including SAS 70 Type II, ISO 27002, Safe Harbor, and OWASP. Synggy business continuity services also include engineering and technical support, backup and disaster recovery, security, and global connectivity.
