AKCELERANT NAMED IN PHILADELPHIA 100

Akcelerant is recognized as one of the region's fastest growing companies for 2nd straight year

MALVERN, PENNSYLVANIA – October 31, 2011 – Akcelerant, a provider of connected software technology to the financial services industry, has been named as one of the region's fastest growing companies according to the Philadelphia 100. This annual project, conducted by the Entrepreneurs' Forum of Greater Philadelphia, Philadelphia Business Journal and Wharton Small Business Development Center, gathers key growth information in order to recognize the area's fastest-growing, privately-held companies.

This marks Akcelerant's second consecutive year receiving this award. Akcelerant's inclusion in the prestige ranking was due to an impressive growth rate of 59% over the least 3 years. Such growth can be attested to the success of Akcelerant's multiple product lines that provide software solutions for lending, collection, recovery and sales/service to credit unions and banks. Today, more than 500 financial institutions in North America are using Akcelerant technology.

"Akcelerant is honored to be recognized in the Philadelphia 100 again this year. It has been amazing to watch this company grow exponentially since it began back in 2000. Our accomplishments would not be possible without the hard work and support of the entire Akcelerant family including employees, customers and business partners, who all share in this award," states Jay Mossman, president and CEO of Akcelerant.

About Akcelerant Software LLC
